

Dear LRRSA Member,

Shortly you will receive your copy of Light Railways 275. Along with the regular Sales List and Members News there is a sheet detailing the new membership system the Society will be introducing from January 1.

One of the benefits is a significant reduction in workload for the volunteers who willingly perform the various administration tasks, and in this direction we would like to send renewal notices (along with other communications) via email. This email has been sent to the address we have for you, either from your online subscription or from the online shop.

If you are happy to continue our use of this email address you need to do nothing. If however you would rather use a different email address for our communications (and a renewal notice is a very important communication) then could you please reply to this email and advise your preferred email, or alternatively send an email from your preferred address to membership@lrrsa.org.au (and let us know who you are either by including your name, and membership number or address).

All data collected will be used for internal administration purposes, and treated per the Society's privacy policy. This email, the notice included with the mailout, and the Society's privacy policy can be viewed online on our website: lrrsa.org.au

If you would rather not receive any communications by email you will need to reply to this email and indicate that preference.

Regards,
John Dennis
on behalf of the LRRSA Council
